WIRELESS-G NOTEBOOK KIT

Wireless Router + Wireless Notebook Adapter

High Performance Networking Made Easy

Microsoft® Broadband Networking

Wireless Notebook Kit

MN-820

Everything you need to create a high speed wireless network for a desktop and a notebook computer

Unparalleled easy networking

The Microsoft® Broadband Networking Wireless Notebook Kit includes everything you need to set up an 802.11g wireless network and share a single broadband connection across all the computers in your home or small office.

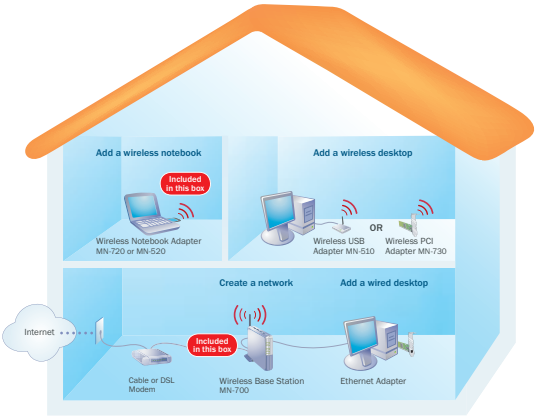
- **Unique software installation wizard** walks you easily through setup.
- Intelligent software automatically detects your Internet service and modem settings for easy base station configuration.
- **Superior graphical Broadband Network Utility** makes it easy to manage your network.
- Exclusive Microsoft automatic update keeps your software current.
- Best-in-class UPnP™ (universal plug and play) device enables you to easily play games and send voice and video over the Internet.

Breakthrough performance

- Smart Windows® CE-powered expandable platform delivers the power and flexibility for your current and future needs.
- Lightning-fast 54 Mbps delivers five times the network speed of 802.11b networks.
- Maximum speed for your notebook PC using 32-bit cardbus.
- Enjoy wireless freedom—playing music, games, and video anywhere.
- State-of-the-art hardware with one WAN and four LAN 10/100 auto-sensing and auto-crossover ports.
- Versatile Ethernet and wireless capability connects up to 253 wireless and wired computers.

Critically acclaimed high security

- State-of-the-art secured connection to your office using Virtual Private Network (VPN) passthrough and tunneling.
- Flexible support for 802.1x, 256-bit Wi-Fi Protected Access (WPA), and 128-bit Wired Equivalent Privacy (WEP) delivers strong wireless security.
- Commercial-grade, built-in hardware Stateful Packet Inspection (SPI) firewall and Network Address Translation (NAT) help protect against unauthorized access.
- Advanced Media Access Control (MAC) and client filtering help protect against unauthorized access to your wireless network.
- Advanced parental controls help restrict children or employees from visiting inappropriate Web sites and can limit time on the Internet.



Share your broadband with the other computers in your home or small office. This diagram can help you determine which products you need for your personal network.

XBOX™ COMPATIBLE

UPnP™

Wi Fi™ The Standard for Wireless Fidelity.

Included in the box:

- Microsoft® Broadband Networking Wireless Base Station—802.11g wireless cable/DSL router and access point with 4-port Ethernet switch (Dimensions: 1.2" x 5.3" x 6.8")
- Wireless Notebook Adapter— 802.11g/Wi-Fi Cardbus PC Card network adapter (Dimensions: 2.1" x 3.4" x 0.3")
- Software CD with the easy-to-use setup wizard and Microsoft Broadband Network Utility
- *Start Here* guide
- *User's Guide*
- Power supply
- Ethernet cable
- Blank 3.5" high-density disk for your network settings

System Requirements:

To use the Microsoft® Broadband Networking Wireless Base Station, you need:

- Computer to configure base station
- External broadband (DSL, cable, or other) modem with Ethernet-to-computer capability
- Microsoft Internet Explorer 5.0 or Netscape Navigator 6.0 or later to view and use base station HTML configuration screens
- Available AC power outlet

To use the Microsoft Broadband Networking Wireless Notebook Adapter, you need:

- PC with an available Type II PC Card Cardbus 3 Volt slot; drivers are included for Microsoft Windows® 98, Windows 98 SE, Windows Millennium Edition (Windows Me), Windows 2000 Professional, Windows XP Professional, and Windows XP Home Edition operating systems

To use the Microsoft Broadband setup wizard and Network Utility, you need:

- PC running Microsoft Windows 98, Windows 98 SE, Windows Millennium Edition (Windows Me), Windows 2000 Professional, Windows XP Professional, or Windows XP Home Edition operating system
- Microsoft Internet Explorer 5.0 or later; setup will install Internet Explorer 6.0 browser components if needed, but will not displace your primary browser
- 132 MB of available hard-disk space if you are installing Internet Explorer for the first time; 40 MB of available hard-disk space if you already have Internet Explorer 5.5 or 6.0 installed
- 4x CD-ROM drive
- VGA or higher-resolution monitor; Super VGA recommended
